FEW OF THE MANY RESCUES

Victor

Victor was found dumped at Victoria Park. He was sick and weak. He is now recovering well at the hospital and he will soon be looking for a home and family to love forever.

Waggy

Waggy was rescued from Wadduwa in a terrible condition. She had maggot infested wounds on her head and neck. She was also severely anemic and suffering from a fungal skin rash. She is currently receiving treatment at the hospital.

Sue

When we found Sue, she was very sick and weak. She is yet another neglected victim of the cruel pedigree pet shop trade and has probably been used multiple times for breeding. These dogs are often used like machines for breeding and when they can't give the owner anymore profit, they are dumped.

RESCUED FROM THE STREETS AND LUCKY TO FIND THEIR FOREVER HOMES
