## RESCUED FROM THE STREETS

Baffy

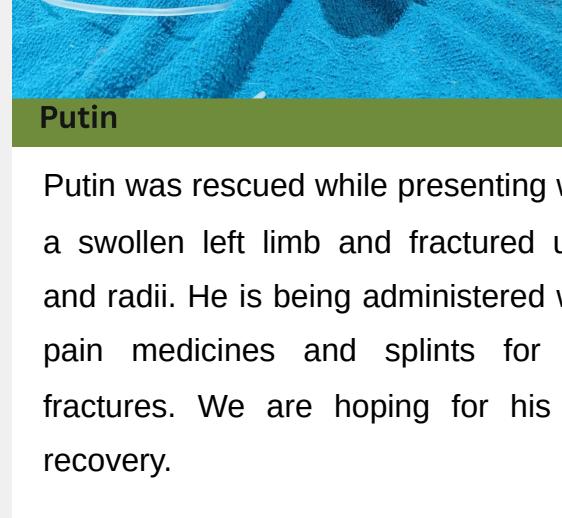

Kioma

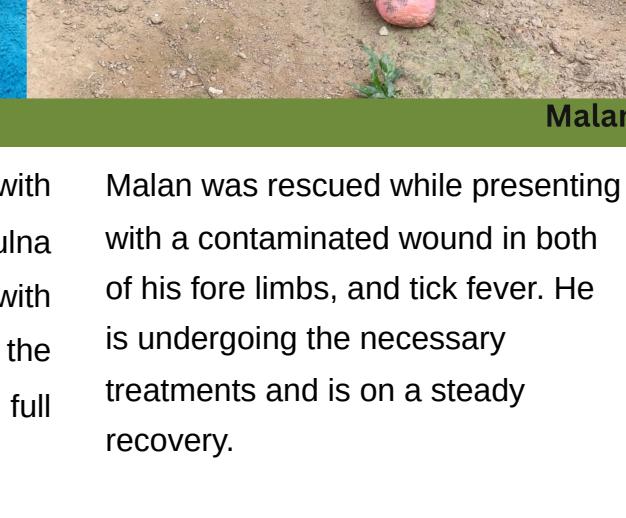

Baffy was rescued whilst being emaciated, reduced appetite, and having a liver failure. He received supportive therapy along with plenty of love and necessary care.

Kioma was rescued with angular limbs and severe anemia. She is recovering really well and all necessary treatments are being administered.

## FOUND THEIR FOREVER HOMES

Molly

Wether

Our dear Molly and Wether have finally found their own family! These little moments bring us endless joy, and warms our hearts to see them start their lives wrapped in love.

## RECOVERING AT THE HOSPITAL

Putin

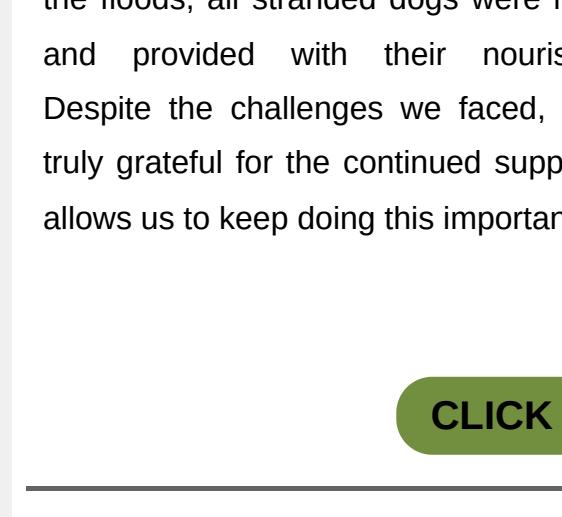

Malan

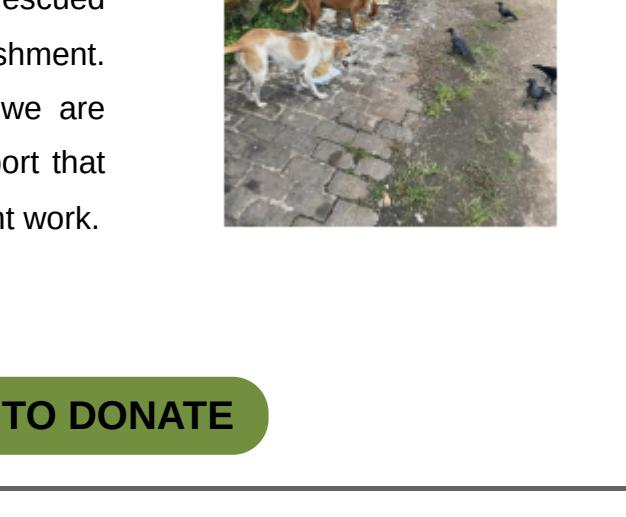

Putin was rescued while presenting with a swollen left limb and fractured ulna and radii. He is being administered with pain medicines and splints for the fractures. We are hoping for his full recovery.

Malan was rescued while presenting with a contaminated wound in both of his fore limbs, and tick fever. He is undergoing the necessary treatments and is on a steady recovery.

## WHOLESOME REUNIONS

Nickel

Kalu

Nickel was rescued with a wound in his right forelimb. He underwent amputation surgery and made a steady recovery; after which, he was happily reunited with his loved ones.

Kalu was rescued with an infected wound in his right leg. He was provided with antibiotics and the necessary supportive care and made a full recovery. He was later reunited with his loved ones.

## EMBARK NEWS

This month, Embark carried out our regular feeding rounds, making sure the street dogs in our communities remained safe,

nourished, and cared for. Further, during the floods, all stranded dogs were rescued

and provided with their nourishment.

Despite the challenges we faced, we are

truly grateful for the continued support that

allows us to keep doing this important work.
