LASSY RE-HOMED

Lassy was rescued from the Keells Super in Thalawathugoda. Her entire body was inflamed causing severe discomfort. She could only walk very slowly with much pain.

Once in the hospital, tests confirmed that she had filaria that had progressed into elephantiasis. Lassy went into surgery to remove some of the growths and she was put on a course of medication. A month later, she was ready for release.

PEANUT FROM THE EAST COAST

Otara's Sinhala and Tamil New Year celebrations included rescuing little Peanut. He had been attacked by a leopard and suffered damage to his spinal cord.

WHAT EMBARK WANTS YOU TO KNOW ABOUT HOT WEATHER

Sri Lanka has warm weather all year round, but the past two months have brought intense heat like never before. Pet owners should take extra care of their dogs on hot days.

HOW I SPENT AVURUDU WITH MY POOCH

We celebrated our adopted street pooches this Sinhala and Tamil New Year, with an Embark Avurudu photo Competition. Entrants were asked to send in photos of how they spend the holidays with their pooch.

HOPING FOR A HOME TO CALL HER OWN

Hopper was a regular at the Ambepussa Rest House. Each evening as the shadows lengthened she would appear, silently, like a shadow herself. She would accept her dinner and gulp it down before running off to hide again.
