Lucky Little Noori

Little Noori was yet another victim of cruelty towards animals in our country. She was rescued after hot water was thrown in to her eyes. She lost one eye but she recovered and she was one of the naughtiest puppies in the hospital. Her joy for life made her find a home at Mr.Perera's loving residence at Seeduwa on our adoption day at K Zone – Ja-Ela.

Gene's Rescue

Gene was rescued from Greenpath with a head injury and she is now being treated at the hospital. A vehicle had run over her and driven off without helping. She was unresponsive for a few days and is still afraid of people. She is responding better and we hope she will be her normal self again soon.
