# THIS IS HOPPER

Named after the well-loved Sri Lankan pancake, we think our beautiful girl is quite the cute pancake herself. Hopper is an energetic, mischievous 3 year old and enjoys being fussed over.

Brought to Embark with a skin condition so severe that folds of skin drooped all around her body, when we first met her, Hopper did not have a single patch of fur on her body. With regular treatment Hopper's fur has fully grown back and she is now a beautiful rust brown dog with a spirited personality.

Hopper still has a bit of recovery ahead of her but she is eager to meet her forever human so that she can give her heart fully to someone who will love her unconditionally.

# THIS IS ELLA

Our gorgeous girl Ella is three years old, loves the outdoors and spends her time sniffing the flowers out in the garden and enjoying the fresh air. She prefers to get to know someone well before she trusts them, but we think this is a result of not having a forever human in her life yet.

If you sit very still and turn your back to Ella when you first meet her, you may win a sniff on the back of your neck or even a peck on your hand! She's a bit sneaky with her affections.

We know Ella has a big heart and a lot of love to give and we hope her forever human will come into her life very soon.

# THIS IS LOOPY

Our beautiful boy Loopy was the victim of a road traffic accident which left him unable to walk. After some physiotherapy she is now back on her feet, however as her name suggests she walks in loops! Loopy is four years old, loves people and although a bit shy at times, does not let her past get in the way of building new friendships with both humans and fur friends alike.

Loopy has a lot of love to give to the right human (or humans) and we hope she finds her forever human soon.

# THIS IS SARA

Brought to Embark with a skin rash and a fracture on her hind leg, Sara is a sweet six year old girl. She is great with her fur friends but her biggest love is being around her favourite humans. She can be a bit shy with new humans, but it doesn't take long for our beautiful girl to wiggle her way into your heart with a tail wag and a warm lick.

Sara has many years of love to give and is patiently waiting for a caring human to give her a home in her twilight years.
