### KALU Before

### KALU After

## KALU finds her forever home

Kalu was another victim of horrendous human cruelty. Acid was thrown on him giving him severe burns on his legs and eyes.

After several weeks of pain and treatments Kalu finally got better and he went back to the people who rescued him.

## Puppy petting session at ACHE

A puppy petting session was conducted at The American College of Higher Education at Dehiwala to promote the Sri Lankan street dogs and to spread kindness and compassion. It was a happy day for both students and puppies!

## Rescuing KOSMO

Kosmo was rescued recently from Kaduwela with a large maggot infested wound on his head. He is at the hospital receiving much needed treatment and care. We hope he gets well soon so that he can find a loving forever home.

## OLIVER finds help

Oliver is a Beagle who had been abandoned by his owners after he got sick. He has an enlarged stomach and has many other complications. Oliver has a long way to go for recovery, but we are hopeful that he will get better. Oliver is just one of many who are suffering as a result of the increase of abuse, cruelty and neglect in the pedigree trade

### PETE Before

### PETE After

## Happy little PETE

Little Pete was rescued by us sometime back with a fractured leg caused by an accident. Sadly we had to amputate one of his legs, but this little guy never stopped being his happy self. He was one of the liveliest puppies in the hospital and a kind family decided to adopt Pete! He's safe & happy in his new home now.

## AERO'S rescue

Aero is one of our latest rescues and has a tumor on his nose. He was finding it difficult to breathe but with the medical care and love he needed Aero is now getting better. He will soon be ready to head back to the community.

## Adoptions in November

Embark hosted 4 adoption days in different parts of Colombo in November and 101 beautiful street dogs found their forever homes.
